

Amazon Web Services Resources

AWS credits will be available at the event to use for those who would like to build their solutions on AWS. If you need AWS credits during the hackathon, please approach the hackathon crew who will give you a brief form to fill out.

When setting this up, you will need to register an account as per normal at aws.amazon.com. This does require a credit card, however when credits are applied it will be billed and not the account credit card. Please be mindful to turn off any resources after you are finished with them, so that you do not exceed the credit limit as you would be charged.
